

# Intro to PACE

Guru

# Getting Access to PACE

- If you are with Thad...
  - You need to email [pace-support@oit.gatech.edu](mailto:pace-support@oit.gatech.edu)
    - User's GT Account name (e.g. gburdell3)
    - User's name
    - Authorizing person's ("PI") GT Account name
    - PI's name
    - PI's direct approval for the account

# Getting Access to PACE

- Dolphin People - Ask Scott to make account on PACE if possible
- Brain People - Ask Melody to make account on PACE if possible
- PI just needs to email [pace-support@oit.gatech.edu](mailto:pace-support@oit.gatech.edu)

# I have an account. Now what?

- Install GT VPN
  - <https://docs.pace.gatech.edu/gettingStarted/logon/>

# Logging into PACE

Using SSH and VS Code

# First things to do on PACE

Setting Anaconda + Shared Symlink

# Accounts + Storage

Using pace-quota

# Interactive Jobs

Open OnDemand

# CPU + GPU Jobs
